

Auditing Procedures Report V1.04

Issued under Public Act 2 of 1968, as amended.

Unit Name	Fremont Township	County	SANILAC	Type	TOWNSHIP	MuniCode	76-1-120
Opinion Date-Use Calendar	Jun 3, 2008	Audit Submitted-Use Calendar	Jul 15, 2008	Fiscal Year-Use Drop List	2008		

If a local unit of government (authorities & commissions included) is operating within the boundaries of the audited entity and is NOT included in this or any other audit report, nor do they obtain a stand-alone audit, enclose the name(s), address(es), and a description(s) of the authority and/or commission.

Place a check next to each "Yes" or non-applicable question below. Questions left unmarked should be those you wish to answer "No".

<input checked="" type="checkbox"/>	1. Are all required component units/funds/agencies of the local unit included in the financial statements and/or disclosed in the reporting entity notes to the financial statements?
<input checked="" type="checkbox"/>	2. Does the local unit have a positive fund balance in all of its unreserved fund balances/unrestricted net assets?
<input type="checkbox"/>	3. Were the local unit's actual expenditures within the amounts authorized in the budget?
<input checked="" type="checkbox"/>	4. Is this unit in compliance with the Uniform Chart of Accounts issued by the Department of Treasury?
<input checked="" type="checkbox"/>	5. Did the local unit adopt a budget for all required funds?
<input checked="" type="checkbox"/>	6. Was a public hearing on the budget held in accordance with State statute?
<input checked="" type="checkbox"/>	7. Is the local unit in compliance with the Revised Municipal Finance Act, an order issued under the Emergency Municipal Loan Act, and other guidance as issued by the Local Audit and Finance Division?
<input checked="" type="checkbox"/>	8. Has the local unit distributed tax revenues, that were collected for another taxing unit, timely as required by the general property tax act?
<input checked="" type="checkbox"/>	9. Do all deposits/investments comply with statutory requirements including the adoption of an investment policy?
<input checked="" type="checkbox"/>	10. Is the local unit free of illegal or unauthorized expenditures that came to your attention as defined in the Bulletin for Audits of Local Units of Government in Michigan, as revised (see Appendix H of Bulletin.)
<input checked="" type="checkbox"/>	11. Is the unit free of any indications of fraud or illegal acts that came to your attention during the course of audit that have not been previously communicated to the Local Audit and Finance Division? (If there is such activity, please submit a separate report under separate cover.)
<input checked="" type="checkbox"/>	12. Is the local unit free of repeated reported deficiencies from previous years?
<input checked="" type="checkbox"/>	13. Is the audit opinion unqualified?
	14. If not, what type of opinion is it? <input type="text" value="NA"/>
<input checked="" type="checkbox"/>	15. Has the local unit complied with GASB 34 and other generally accepted accounting principles (GAAP)?
<input checked="" type="checkbox"/>	16. Has the board or council approved all disbursements prior to payment as required by charter or statute?
<input checked="" type="checkbox"/>	17. To your knowledge, were the bank reconciliations that were reviewed performed timely?
<input checked="" type="checkbox"/>	18. Are there reported deficiencies?
<input checked="" type="checkbox"/>	19. If so, was it attached to the audit report?

General Fund Revenue:	\$ 116,276.00

REPORT OF INDEPENDENT AUDITOR'S

Township of Fremont
Sanilac County, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Fremont as of and for the year ended March 31, 2008, which collectively comprise the Township's basic financial statements required by accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Township of Fremont management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township of Fremont as of March 31, 2008, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1, the Township has implemented a new financial reporting model as required by the Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – For State and Local Governments as of March 31, 2008.

The management's discussion and analysis budgetary comparison information on pages i through v and 14 through 15 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Township of Fremont
June 3, 2008

Our audit conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Township of Fremont's basic financial statements. The supplemental financial information listed in the Table of Contents is presented for purposes of additional analysis and is not a required part of the general-purpose financial statements of Fremont Township. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

Township of Fremont

Management's Discussion and Analysis

For Fiscal Year Ended March 31, 2008

As management of the Township of Fremont, we offer readers of the Township of Fremont's financial statements this narrative overview and analysis of the financial activities of the Township for the fiscal year ended March 31, 2008.

This reporting model was adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements -- and Management Discussion and Analysis (MD&A) -- for State and Local Governments issued in June of 2000. Certain comparative information between the current year and the prior year is required to be presented in the MD&A. However, because this is the first year of implementing the new reporting model, certain necessary comparative information of the previous year was not prepared. We expect this situation to continue because small townships are only required to have an audit every other year.

FINANCIAL HIGHLIGHTS

- The assets of the Township exceeded its liabilities at the close of the most recent fiscal year by \$385,497 (net assets). Of this amount, \$306,279 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$38,799.
- As of the close of the current fiscal year, the Township's governmental funds reported combined ending fund balances of \$306,279, an increase of \$18,608 in comparison with the prior year. \$306,279 is available for spending.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$291,833.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary and additional information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Township's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., delinquent personal property taxes).

Township of Fremont

Management's Discussion and Analysis

For Fiscal Year Ended March 31, 2008

Both of the government-wide financial statements distinguish functions of the Township that are principally supported by taxes, special assessments and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Township include general government, public safety, public works, health and welfare, community and economic development, culture and recreational, and other functions.

The government-wide financial statements can be found on pages 1 and 2 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Township maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is elsewhere in this report.

The Township adopts an annual appropriated budget for its general fund and special revenue funds. Budgetary comparison statements have been provided for the general fund in the required supplementary information and for the special revenue funds in the additional information to demonstrate compliance with budgets.

The basic governmental fund financial statements can be found on pages 3 through 5 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Township's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 6 of this report.

Notes to the financial statements. The notes provide additional information that is essential to full understanding of the data provided in the government-wide financial statements. The notes to the financial statements can be found on pages 7 through 13 of this report.

Township of Fremont

Management's Discussion and Analysis

For Fiscal Year Ended March 31, 2008

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Township's general fund and special revenue budget. Required supplementary information can be found on pages 14 through 15 of this report.

Combining and individual fund statements and schedules can be found on page 16 of this report.

Government-wide Financial analysis

As noted earlier, net assets may serve over time as a useful indicator of government's financial position. In the case of the Township, assets exceeded liabilities by \$385,497 at the close of the most recent fiscal year.

A large portion of the Township's net assets (21 percent) reflects its investment in capital assets (e.g., land, building, machinery, infrastructure, and equipment), less any related debt used to acquire those assets that is still outstanding. The Township uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. It should be noted that the Township does not have any outstanding debt.

Township of Fremont's Net Assets

	Governmental Activities March 31, 2008
Current and other assets	\$ 306,279
Capital assets	79,218
Total assets	<u>\$ 385,497</u>
Current liabilities	<u>-</u>
Net assets:	
Invested in capital assets	\$ 79,218
Restricted	-
Unrestricted	306,279
Total net assets	<u>\$ 385,497</u>

The balance of unrestricted net assets \$306,279 may be used to meet the government's ongoing obligations to citizens and creditors.

Township of Fremont

Management's Discussion and Analysis

For Fiscal Year Ended March 31, 2008

Governmental activities. Governmental activities increased the Township's net assets by approximately \$38,799. Key elements of this increase are as follows:

Township of Fremont's Changes in Net Assets

	<u>Governmental Activities</u> <u>March 31, 2008</u>
Revenues	
Program revenues	
Charges for services	\$ 4,449
General revenues	
Property taxes	87,916
State sources	66,045
Investment earnings	12,575
Other	<u>1,441</u>
Total revenues	<u>172,426</u>
Expenses	
General government	29,470
Public safety	15,250
Public works	61,682
Legislative	24,063
Cultural and recreational	69
Depreciation	<u>3,093</u>
Total expenses	<u>133,627</u>
Increase in net assets	38,799
Net assets, beginning of year	<u>346,698</u>
Net assets, end of year	<u><u>\$ 385,497</u></u>

Financial Analysis of the Government's Funds

As noted earlier, the Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Township's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Township of Fremont
Management's Discussion and Analysis
For Fiscal Year Ended March 31, 2008

At the end of the current fiscal year, the Township's governmental funds reported combined ending fund balance of \$306,279, an increase of \$18,608 in comparison with the prior year. Approximately 100 percent of this total amount (\$306,279) constitutes unreserved fund balance, which is available for spending at the government's discretion.

The general fund is the chief operating fund of the Township. At the end of the current fiscal year, unreserved and undesignated fund balance of the general fund was \$291,833, while total fund balance reached \$306,279.

The fund balance of the Township's general fund increased by \$10,089 during the current fiscal year.

General Fund Budgetary Highlights

The final amended budget was unchanged from the original budget.

Capital Asset and Debt Administration

Capital assets. The Township's investment in capital assets for its governmental and business type activities as of March 31, 2008, amounts to \$79,218 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery, and equipment, and office equipment and furniture.

Major capital asset events during the current fiscal year included the following:

Township of Fremont's Capital Assets
(net of depreciation)

	<u>Governmental Activities</u> <u>March 31, 2008</u>
Land	4,000
Buildings	52,807
Land and building improvements	22,411
	<u>\$ 79,218</u>

Additional information on the Township's capital assets can be found in Note 4 on page 13 of this report.

Economic Factors and Next Year's Budgets and Rates

Township of Fremont goal is to continually look for the most efficient and effective methods to maintain and enhance the services that are provided to the public. .

Requests for Information

This financial report is designed to provide a general overview of the Township's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Bruce Gardener at the Township Office, 2633 Galbraith Line Rd., Yale, MI 48097.

TOWNSHIP OF FREMONT, SANILAC COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

DESCRIPTION OF TOWNSHIP OPERATIONS & FUND TYPES:

The Township of Fremont, Michigan covers an area of approximately 36 square miles within Sanilac County. The Township operates under an elected township board and is a general law township. The Township provides many services to its more than 500 residents, including public works, public safety, community enrichment, development, and human services.

The financial statements of the Township of Fremont have been prepared in conformity with U.S. Generally Accepted Accounting Principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

ADOPTION OF NEW ACCOUNTING STANDARDS:

During the fiscal period 2008, the Township adopted GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued June 1999; GASB Statement 37, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments Omnibus*, and amendment to GASB No. 21 and No. 34, issued June 2001, and in GASB Statement No. 38, *Certain Financial Statement Note Disclosures*, issued in 2001. These statements require the Township to prepare a Management's Discussion and Analysis, government-wide financial statements on an accrual basis, and make some changes to the footnotes.

The table shows beginning net assets restated for the effects of implementation of GASB Statement No. 34:

Fund Balance at March 31, 2007 – governmental funds	\$287,671
Net capital assets (restated)	<u>59,027</u>
Restated net assets – April 1, 2007	<u>\$346,698</u>

A. REPORTING ENTITY:

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision whether to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic – but not the only – criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities.

Based upon the application of these criteria, the general purpose financial statements of the Township of Fremont contain all the funds and account groups controlled by the Township's Board as no other entity meets the criteria to be considered a blended component unit or a discretely presented component of the Township nor is the Township a component unit of another entity.

TOWNSHIP OF FREMONT, SANILAC COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued):

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS:

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are supported by taxes, special assessments and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants are similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, are recorded only when payment is due.

Franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current periods. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all the financial resources of the general government, except those required to be accounted for in another fund.

The Road Fund is a special revenue fund. It is used to account for the Township's road tax levy.

TOWNSHIP OF FREMONT, SANILAC COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued):

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION(Continued):

Also, the government reports as fiduciary funds, the Tax Collection Fund (agency fund).

The Agency Fund is utilized to account for the Township's collections of taxes for other governmental units.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions, including special assessments and the public safety millage. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, the unrestricted resources, as they are needed.

D. ASSETS, LIABILITIES, AND NET ASSETS:

1. Cash and Investments

Cash includes amounts in petty cash and demand deposits. Investments included instruments allowed by state statute subsequently described. Investments are carried at amortized cost or fair value. The Township's deposits and investments are in accordance with statutory authority.

State statutes authorize the Township to invest in bonds, securities, and other direct and certain indirect obligations of the U.S. Treasury, which include securities issued or guaranteed by the Government National Mortgage Association; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; and in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase and not totaling more than 40% of any fund at any time. The Township is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

2. Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

TOWNSHIP OF FREMONT, SANILAC COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued):

D. ASSETS, LIABILITIES, AND NET ASSETS (Continued):

3. Receivables

Receivables consist primarily of amounts for taxes and customers charges. No allowance for doubtful accounts is considered necessary and credit risk is minimal because of the large number of customers and the authority of the Township to add receivables to the tax rolls, which are secured by the underlying property.

4. Restricted Assets

Certain proceeds of enterprise fund bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants and Michigan law.

5. Fixed Assets

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. All purchased fixed assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist.

Donated fixed assets are valued at their estimated fair market value on the date received. Fixed assets purchased within the proprietary funds and the non-expendable trust fund are reported as assets within those funds and accordingly, are included on their balance sheet.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Public domain ("infrastructure") general fixed assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are not capitalized, as these assets are immovable and of value only to the government. Primarily because of this policy, total expenditures for capital improvements in the governmental funds do not equal total additions to the general fixed asset account group.

6. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Non-reoccurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

TOWNSHIP OF FREMONT, SANILAC COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (Continued):

D. ASSETS, LIABILITIES, AND NET ASSETS (Continued):

7. Estimates

The preparation of financial statements in conformity with the U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 – LEGAL COMPLIANCE – BUDGETS:

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general and special revenue funds. Encumbrance accounting is employed in governmental funds. Significant encumbrances outstanding at year end, if any, are reported as reservations of fund balances because they will be re-appropriated in the subsequent fiscal year.

The Township follows these procedures in establishing the budgetary data reflected in the financial statements.

1. On or prior to April 1 of each year, a proposed budget is submitted to the Board of Trustees for the fiscal year commencing the following April 1. The operating budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted to obtain taxpayers comments.
3. Prior to February 1, the budget is legally enacted through passage of a resolution.
4. Any revisions of the budget must be approved by the Board of Trustees.
5. Formal budgetary integration is employed as a management control device during the year for the general fund and special revenue funds.
6. Budgets for general and special revenue funds are adopted on a basis consistent with generally accepted accounting principles. Budgeted amounts are as originally adopted, or as amended by the Board of Trustees during the fiscal year. Individual amendments were not material in relation to the original appropriations which were amended.
7. The budget is prepared by fund and function and includes information on the past year, current year estimates and requested appropriations for the next fiscal year. Expenditures may not exceed budget at the function level.
8. The General Fund Parks and Recreation budget was overspent by \$6,853. This is a violation of the PA 621 Budgeting Act.

TOWNSHIP OF FREMONT, SANILAC COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2008

NOTE 3 - CASH AND INVESTMENTS:

Cash and investments are held separately by each of the Township's funds.

Interest rate risk. In accordance with its investment policy, the Township will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to charges in market interest rates, by: avoiding the need to sell securities prior to maturity and investing operating funds primarily in short term securities, money market mutual funds or similar public investment pools. Securities shall not normally be sold prior to maturity except to minimize loss of principal; to improve the quality, yield or target duration in the portfolio, or to meet liquidity needs.

Credit Risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSRO's).

Concentration of credit risk. The Township will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the Township's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial credit risk- deposits. In the case of deposits, this is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. As of March 31, 2008, \$110,971 of the Township's bank balance of \$294,831 was exposed to custodial credit risk because it was uninsured and uncollateralized. Certificate of deposits amounted to \$ 150,939 and are included in the above totals.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counter party, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Township's investments are categorized to give an indication of the level of risk assumed by the Township at year-end. Category 1 includes investments that are insured or registered, or securities held by the Township's or the Township's agent in the Township's name. Category 2 includes investments that are uninsured and unregistered, with securities held by the counter-part's trust department or its agent in the Township's name. Category 3 includes investments that are uninsured and unregistered, with the securities held by the counter party, or by its trust department or its agent but not in the Township's name. At March 31, 2008, the Township had no Category 1, 2 or 3 investments. Additional disclosures required by GASB 40 are not included in the accompanying financial statements.

The Township's cash, cash equivalents, investments and restricted assets at March 31, 2008 are composed of the following:

	<u>CASH AND CASH EQUIVALENTS</u>	<u>INVESTMENTS</u>	<u>RESTRICTED ASSETS</u>
General Fund:			
Deposits	\$293,564		
Other Funds:			
Deposits	<u>1,317</u>	<u>NONE</u>	<u>NONE</u>
TOTAL	<u>\$294,881</u>	<u>NONE</u>	<u>NONE</u>

TOWNSHIP OF FREMONT, SANILAC COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2008

NOTE 4 – CHANGES IN CAPITAL ASSETS:

The capital assets of the Township consist of the following:

	<u>BALANCE APRIL 1, 2007</u>	<u>ADDITIONS</u>	<u>DELETIONS</u>	<u>BALANCE MARCH 31, 2008</u>
GENERAL GOVERNMENT				
Land	\$ 4,000			\$ 4,000
Building	85,194			85,194
Land Improvements	-	\$ 23,284	-	23,284
Total	89,194	23,284	-	112,478
Less accumulated Depreciation	(30,167)	(3,093)	-	(33,260)
ASSETS	<u>\$ 59,027</u>	<u>\$ 20,191</u>	<u>\$ -</u>	<u>79,218</u>

NOTE 5 – DUE TO AND FROM OTHER FUNDS:

Due to and from other funds balances at March 31, 2008 are as follows:

<u>FUND</u>	<u>DUE FROM OTHER FUNDS</u>	<u>DUE TO OTHER FUNDS</u>
General Fund	\$ 5,811	
Special Revenue Fund – Road Fund	6,904	
Trust and agency:		
Current Tax Collection Fund	-	\$12,715
TOTAL	<u>\$12,715</u>	<u>\$12,715</u>

NOTE 6 - PROPERTY TAX REVENUE:

Property taxes become an enforceable lien on the property as of December 1. Taxes are levied on December 1 and are due in February of the following year. The Township bills and collects its own property taxes and also taxes for the county, intermediate school district and local school districts. All tax collections are accounted for in the tax collection fund, an agency fund. Township tax revenues are recognized in the fiscal year that includes the December 1 levy date. The Township levied .8067 mills for operations and 1.9588 mills for roads on a taxable value of \$28,471,937. In addition, the Township collected the State Education and County Tax that was levied July 1 and due September 15.

NOTE 7 - RISK MANAGEMENT:

The Township is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The Township carries commercial insurance to cover any losses that may result from the above-described activities. For insured programs, there has been no significant reduction in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

To the Members of the Board
Township of Fremont

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Township of Fremont for the year ended March 31, 2008, and have issued our report thereon dated June 3, 2008. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated June 3, 2008, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on June 3, 2008.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Township of Fremont are described in Note 1 to the financial statements. As described in Note 1 to the financial statements, the Township of Fremont changed its accounting policies related to full accrual financial statements by adopting Statement of Governmental Accounting Standards (GASB Statement) No. 34, in 2008. Accordingly, the cumulative effect of the accounting change as of the beginning of the year is reported in Note 1. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 3, 2008.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Members of the Board and management of the Township of Fremont and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Anderson, Tuckey, Bernhardt & Doran, P.C.

June 03, 2008

Members of the Board
Township of Fremont

In planning and performing our audit of the financial statements of the Township of Fremont as of and for the year ended March 31, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Township's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the Township's internal control. During the course of the audit, we observed the following significant deficiencies:

Segregation of Duties

Due to the limited number of people, many critical duties are combined and given to the available employees. To the extent possible, duties should be segregated to serve as a check and balance and to maintain the best control system possible. We recommend the Township segregate duties whenever possible.

Financial Statements

After considering the qualifications of the accounting personnel of the Township of Fremont, we believe that the personnel have the abilities to maintain the day-to-day bookkeeping of the Township, but they do not have the qualifications and abilities to generate financial statements, including the required footnotes, in accordance with accounting principles generally accepted in the United States of America.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Township's internal control. No such findings were discovered during the course of the audit.

Our consideration of internal control over financial reporting and internal control over compliance was for the limited purpose described above and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses.

Page two

This communication is intended solely for the information and use of management and others within the governmental unit and is not intended to be and should not be used by anyone other than these specified parties.

We appreciate the opportunity to be of service to the Township of Fremont and look forward each year to continuing our relationship. The cooperation extended to us by your staff throughout the audit was greatly appreciated. Should you wish to discuss any item included in this letter further, we would be happy to do so.

Very truly yours,
